

PRECISION SAWMILL CHIP SCREEN

Precision "Fixed-Rotary" Chip Screens incorporate proven engineering features to assure long-life performance with consistent high quality production. The smooth glide of the fixed rotary counter weight from the balanced center axis of the drive unit, provides year after year of high performance with a minimum of maintenance. The low profile receiving pan is additional assurance that your Precision "Fixed-Rotary" Chip Screens will meet the most demanding requirements of any chip specifications.

◀ *Chip Screens are suspended from frame, with 1/4" stress proof hanger rods with rod end bearings.*

Hanger rods are available with universal joints as an option. ▶
